

Dorman Products, Inc. Uses Attunity Gold Client to Recognize Increased Efficiencies in Its SAP® Environment

May 23, 2018

Attunity's SAP test data management and data refresh solution enables customer a boost of up to 60% in productivity and efficiency

BURLINGTON, Massachusetts, May 23, 2018 /PRNewswire/ --

Attunity Ltd. (NASDAQ CM: ATTU), a leading provider of data integration and Big Data management software solutions, announced today that [Dorman Products, Inc.](#), a supplier of replacement parts and fasteners for passenger cars, light trucks, and heavy duty trucks in the automotive aftermarket, has implemented [Attunity Gold Client](#) to increase efficiencies and productivity in its SAP test data management and data refresh processes.

For 100 years, Dorman Products has focused on growing the automotive aftermarket. In their SAP environment, they are managing very large sales orders, often containing several thousand order lines. Those large orders created difficult and time-consuming challenges in project and support testing cycles. It often took days to re-create large sales orders and de-bug issues.

Dorman Products recognized that improving test data management could help substantially improve the productivity and efficiency of its support and testing efforts. They implemented Attunity Gold Client for its flexibility and ease of use in an SAP environment. Already, the team has noted that frequent tasks, such as adjusting stock levels in test environments, are very easy to do with Gold Client, compared with other complex solutions. Dorman Products now benefits from an agile and flexible approach to test data for its SAP environment.

"With Attunity Gold Client, we can address quality issues much earlier than in the past and have quick access to relevant test data to accelerate new project roll-outs," said **Michael Hershey, Quality Assurance Manager at Dorman Products, Inc.** "We also appreciate Attunity's brand trust and recognition over its competitors. Overall, we found that Attunity helped us reduce time spent on root cause analysis by 50-60 percent. And we're reducing data preparation and overall testing by 30 percent!"

"We are excited to help Dorman Products realize such value in its mission-critical SAP environment," **explained Matt Hayes, VP SAP Business at Attunity.** "It is rewarding to see them reach their test data and refresh goals while enabling efficiencies and productivity in production. We are proud to be a key enabler of this important project."

About Attunity

Attunity is a leading provider of data integration and Big Data management software solutions that enable availability, delivery and management of data across heterogeneous enterprise platforms, organizations and the [cloud](#). Our software solutions include [data replication and distribution](#), [test data management](#), [change data capture \(CDC\)](#), [data connectivity](#), [enterprise file replication \(EFR\)](#), [managed file transfer \(MFT\)](#), [data warehouse automation](#), [data usage analytics](#) and [cloud data delivery](#).

Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to, risks and uncertainties relating to: our history of operating losses and ability to achieve profitability; our reliance on strategic relationships with our distributors, OEM, VAR and "go-to-market" and other business partners, and on our other significant customers; our ability to manage our growth effectively; acquisitions, including costs and difficulties related to integration of acquired businesses and possible impairment charges; our ability to continue to expand our business into the SAP market and the success of our Gold Client offering; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate, Attunity Compose and Attunity Visibility; fluctuations in our quarterly operating results, which may not necessarily be indicative of future periods; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism as well as cyber-attacks; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties

affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
