

## Attunity Wins \$0.9M Deal With Global Energy Company to Enable GDPR Compliance for its Large SAP Environment

July 10, 2018

BURLINGTON, Massachusetts, July 10, 2018 /PRNewswire/ --

Attunity Ltd. (NASDAQ CM: ATUU), a leading provider of data integration and big data management software solutions, announced today that a global energy company and one of Europe's major electricity operators (the "Customer"), has signed an enterprise license agreement for \$0.9 million to use Attunity Gold Client. The Customer selected Gold Client to facilitate GDPR compliance for its large SAP landscape, as well as provide relevant and reliable SAP data to support improvements in development, training and quality control.

Prior to choosing the Attunity solution, the Customer had tried several competitive solutions on the market. However, none were able to solve its compliance or SAP landscape management challenges. The Customer required a solution that would enable them to meet GDPR commitments with comprehensive data masking capabilities, reduce their non-production system landscape, and provide fresh and complete subsets of data from their SAP production system.

With the onset of the European GDPR regulations and the continuing challenge of managing over ten SAP systems, the Customer turned to Attunity to quickly accommodate the need. Following extensive testing with Attunity Gold Client, the Customer confirmed that the software would provide the capabilities required to meet their data compliance needs, reduce the architecture required to support their SAP landscape, and provide relevant, reliable and accurately anonymized data required by the business to support efficiency improvements in development, testing and training.

"This deal is another example of how Attunity Gold Client helps customers achieve their most strategic SAP initiatives, including meeting GDPR compliance," stated **Paul Kelly, Executive VP EMEA at Attunity**. "We expect that the implementation of Attunity Gold Client will deliver real cost savings and significant business efficiency improvements."

### Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. For example, when we say that we expect that Gold Client will provide the Customer with real cost savings and significant business efficiency improvements, we use a forward-looking statement. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to, risks and uncertainties relating to: our history of operating losses and ability to achieve profitability; our reliance on strategic relationships with our distributors, OEM, VAR and "go-to-market" and other business partners, and on our other significant customers; our ability to manage our growth effectively; acquisitions, including costs and difficulties related to integration of acquired businesses and possible impairment charges; our ability to continue to expand our business into the SAP market and the success of our Gold Client offering; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate, Attunity Compose and Attunity Visibility; fluctuations in our quarterly operating results, which may not necessarily be indicative of future periods; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism as well as cyber-attacks; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
