

Attunity Named by Gartner as a Challenger in the 2018 Magic Quadrant for Data Integration Tools for Third Consecutive Year

August 8, 2018

Attunity improved its placement both in completeness of vision and ability to execute compared to last year

BURLINGTON, Massachusetts, August 8, 2018 /PRNewswire/ --

Attunity, Ltd. (NASDAQ CM: ATTU), a leading provider of data integration and big data management software solutions, announced today that it has been named a Challenger for the third consecutive year in the [2018 Gartner Magic Quadrant for Data Integration Tools](#). Gartner, the definitive source of objective and independent technology thought leadership and advisory services, recognized Attunity with an improved position for both its completeness of vision and ability to execute compared to the previous year. Attunity believes the improvement is due to the company's strong leadership in data replication scenarios, successful OEM and partner momentum, and its alignment with the market's modern data integration needs. ^[1]A complimentary copy of the full report, including the Magic Quadrant graphic, is available [here](#).

The Gartner report includes market growth information and evaluates 15 data integration tool providers. **According to Gartner**, "Technology evolutions in this market to address shifting demand trends, and interim steps to combine cloud and on-premises deployments and broadening hybrid integration approaches, are well on their way to common and broad adoption by 2025." ^[2]

Attunity's Data Integration Platform, which includes Attunity Replicate, a real-time data replication and ingestion software solution, Attunity Compose and Attunity Enterprise Manager (AEM), enables enterprises to accelerate data pipeline automation and migration across cloud, data lakes and streaming enterprise architectures.

"We are focused on enabling enterprises to accelerate their most strategic initiatives, including modern analytics, migrating to the cloud, building data lakes and using streaming architectures. We believe that this continued recognition from Gartner validates that we are on target with our strategy - to provide an innovative data integration platform that addresses the current and future needs of modern enterprises," said **Itamar Ankorion, Chief Marketing Officer at Attunity**. "We feel honored to be recognized for our completeness of vision as well as our ability to execute. We're also proud to have what we believe is a strong partner network with leading cloud and data lake platform providers. To us, Attunity's universal and easy-to-use data integration solutions enable real-time data analytics at the speed of change."

Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to, risks and uncertainties relating to: our history of operating losses and ability to achieve profitability; our reliance on strategic relationships with our distributors, OEM, VAR and "go-to-market" and other business partners, and on our other significant customers; our ability to manage our growth effectively; acquisitions, including costs and difficulties related to integration of acquired businesses and possible impairment charges; our ability to continue to expand our business into the SAP market and the success of our Gold Client offering; timely

availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate, Attunity Compose and Attunity Visibility; fluctuations in our quarterly operating results, which may not necessarily be indicative of future periods; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism as well as cyber-attacks; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
