

## Attunity Expands Data Integration Solutions for Google Cloud Platform (GCP)

September 12, 2018

**Solution accelerates cloud migrations and cloud data lake adoption on GCP with efficient and real-time data delivery**

BURLINGTON, Massachusetts, September 12, 2018 /PRNewswire/ --

[Attunity Ltd.](#) (NASDAQ-CM: ATTU), a leading provider of data integration and big data management software solutions, announced today the expansion of its Attunity Data Integration platform to include comprehensive support for Google Cloud Platform (GCP), including Google Cloud Storage and Google Dataproc. The expanded solution supports data movement from major enterprise databases and mainframes, as well as applications such as SAP, to accelerate cloud data lake adoption as well as analytics and artificial intelligence (AI) initiatives.

To benefit from modern analytics today, enterprises are looking to the cloud as a key data hosting architecture for its scalability, elasticity and cost-efficiencies. To leverage cloud's benefits, organizations need to integrate and ingest enterprise data across on-premises and cloud platforms efficiently while reducing the traditional manual development efforts required for creating analytics-ready data lakes. Attunity now accommodates these needs for GCP with its flexible and high-performance data integration platform that is designed to move data at the speed of change to advance business initiatives.

Attunity's support for Google Cloud Platform enables companies to:

- **Deliver real-time data into Google Cloud** - Using advanced log-based change data capture (CDC), Attunity natively unlocks enterprise systems to deliver data and metadata changes into Google Cloud in real time.
- **Automate the creation of analytics-ready Hadoop and Hive data sets** - Attunity efficiently moves enterprise data into Google Cloud Storage and automatically creates the schema and structures in Google Dataproc to create and continuously update Operational Data Stores (ODS) and Historical Data Stores (HDS) - with no manual coding.
- **Rapidly deploy Google Big Query Data Warehouses** - Attunity automates continuous data loading into Google Cloud Storage in formats optimized for direct access by Google Big Query.
- **Migrate or Replicate to Cloud SQL Databases** - Attunity automates bulk data movement and continuous loading from on-premises databases, including mainframes, and applications such as SAP, to cloud-hosted databases including Google Cloud SQL.
- **Save time and budget on cloud development** - Attunity's universal and high-performance data integration and ingestion solution reduces the traditional time-intensive manual development efforts typically required for moving data and creating analytics-ready cloud repositories.

"With the expanded offering of Attunity's data integration solution now available on GCP, we are strengthening our collaboration with Google Cloud and empowering enterprises to easily and quickly migrate data to GCP for more timely cloud analytics," said **Itamar Ankorian, Chief Marketing Officer at Attunity**. "Our solutions for Google Cloud, supporting a wide range of data sources, help our customers reap the benefits of public cloud deployments, enable real-time analytics and allow businesses to enhance operational efficiencies."

### About Attunity

Attunity is a leading provider of data integration and big data management software solutions that enable availability, delivery and management of data across heterogeneous enterprise platforms, organizations and the [cloud](#). Our software solutions include [data replication and distribution](#), [test data management](#), [change data capture \(CDC\)](#), [data connectivity](#), [enterprise file replication \(EFR\)](#), [managed file transfer \(MFT\)](#), [data warehouse automation](#), [data usage analytics](#) and [cloud data delivery](#).

Attunity has supplied innovative software solutions to its enterprise-class customers for over 20 years and has successful deployments at thousands of organizations worldwide. Attunity provides software directly and indirectly through a number of partners such as Microsoft, Oracle, IBM and Hewlett Packard Enterprise. Headquartered in Boston, Attunity serves its customers via offices in North America, Europe, and Asia Pacific and through a network of local partners. ### Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to, risks and uncertainties relating to: our history of operating losses and ability to achieve profitability; our reliance on strategic relationships with our distributors, OEM, VAR and "go-to-market" and other business partners, and on our other significant customers; our ability to manage our growth effectively; acquisitions, including costs and difficulties related to integration of acquired businesses and

possible impairment charges; our ability to continue to expand our business into the SAP market and the success of our Gold Client offering; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate, Attunity Compose and Attunity Visibility; fluctuations in our quarterly operating results, which may not necessarily be indicative of future periods; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism as well as cyber-attacks; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
