

Attunity Replicate Achieves Certified Integration with SAP HANA® Platform

October 2, 2018

Solution accelerates data delivery for analytics across SAP HANA®, data lakes and cloud environments; to be demonstrated live this week at SAP® TechEd®

BURLINGTON, Massachusetts, October 2, 2018 /PRNewswire/ --

Attunity, Ltd. (NASDAQ CM: ATTU), a leading provider of data integration and big data management software solutions, announced today that its [Attunity Replicate](#) solution has achieved SAP-certified integration with SAP HANA®. This certification validates that the solution has been proven to interoperate with SAP HANA. The Attunity Replicate for SAP HANA solution will be showcased at SAP® TechEd® in Attunity booth #227 in Las Vegas, NV, from October 2-5.

Attunity Replicate provides a universal, hybrid data integration solution for businesses that need to deliver real-time data for analytics. The solution enables enterprises to easily and securely capture and integrate relevant data in real-time - to or from SAP HANA - and across data centers, data lakes or cloud platforms. Attunity Replicate's real-time data integration, using change data capture (CDC) technology, provides optimized and secure synchronization of data for analytics across SAP applications on SAP HANA or SAP S/4HANA®.

Attunity Replicate enables SAP customers to:

- **Load heterogeneous data into SAP HANA** - To get the most value out of analytic investments, enterprises need to be able to feed other data sources into SAP HANA and keep the data updated in real-time. Attunity expands the value of SAP HANA by delivering automated and continuous data ingestion from a broad range of enterprise data sources, mainframe, and Cloud databases.
- **Integrate valuable SAP data into cloud, data lake and streaming platforms** - The Attunity solution makes SAP HANA data available across a wide variety of analytics platforms. This provides a unified means for replicating SAP documents, transactions and business data to a diverse ecosystem of analytic environments.
- **Feel confident with an SAP-certified solution** - The certification for integration with SAP HANA means Attunity Replicate has passed SAP's testing process with the latest release of SAP HANA.

"Solving data integration challenges for businesses that use SAP solutions is Attunity's strength. We enjoy helping our customers to enable their strategic analytics initiatives and maximize the value of their SAP investments," said **Matt Hayes, VP of SAP Business at Attunity**. "We look forward to providing live demonstrations of the platform this week at SAP TechEd and continuing to introduce innovations for the SAP ecosystem. We're glad to have the opportunity to help ensure that our solutions are engineered with the utmost quality and validated via SAP's stringent certification process."

About Attunity

Attunity is a leading provider of data integration and big data management software solutions that enable availability, delivery and management of data across heterogeneous enterprise platforms, organizations and the cloud. Our software solutions include [data replication and distribution](#), [test data management](#), [change data capture \(CDC\)](#), [data connectivity](#), [enterprise file replication \(EFR\)](#), [managed file transfer \(MFT\)](#), [data warehouse automation](#), [data usage analytics](#) and [cloud data delivery](#).

Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to, risks and uncertainties relating to: our history of operating losses and ability to achieve profitability; our reliance on strategic relationships with our distributors, OEM, VAR and "go-to-market" and other business partners, and on our other significant customers; our ability to manage our growth effectively; acquisitions, including costs and difficulties related to integration of acquired businesses and possible impairment charges; our ability to continue to expand our business into the SAP market and the success of our Gold Client offering; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate, Attunity Compose and Attunity Visibility; fluctuations in our quarterly operating results, which may not necessarily be indicative of future periods; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of

hostilities or acts of terrorism as well as cyber-attacks; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
