

Attunity Wins Four-Year Term Deal for Over \$500,000 With a Large State Agency to Enable a Strategic Analytics Initiative

November 19, 2018

Solution includes Attunity Replicate and Compose for Data Warehouses to automate data warehousing and enable real-time analytics on pension claims data

BURLINGTON, Massachusetts, November 19, 2018 /PRNewswire/ --

Attunity Ltd. (NASDAQ CM: ATTU), a leading provider of data integration and big data management software solutions, announced today that a large US state agency (the "Customer") has signed a four-year term agreement in excess of \$500,000 for [Attunity Replicate](#) and [Attunity Compose for Data Warehouses](#). The integrated Attunity platform was selected to enable modern data warehousing and support real-time analytics on multi-sourced pension claims data.

The Customer, who serves as the chief fiscal officer for the state, auditing operations and managing a large state employee retirement fund, selected Attunity after a successful proof of concept process that included loading large volumes of data. The Customer also cited selecting the Attunity solution for its ease of use and advanced modelling capabilities. In addition, Attunity fulfilled the Customer's requirement to automate the creation, management and updates of their data warehouse to support data integration from Oracle PeopleSoft OLTP databases into their data warehouse.

"Building a data warehouse is typically a very time-consuming and complex initiative. Attunity Compose is a premier industry solution for automating this manual series of processes, thus delivering immediate ROI for our customers," stated **Mark Logan, President at Attunity**. "In addition, our modern approach to data integration provides the scale and real-time data required for advanced analytics and improved insights on their pension data."
