

Attunity Wins Over \$2 Million in Additional Business With a Global Bank to Enable Expansion of its Strategic Data Lake Initiative

December 5, 2018

Term deal expands use of Attunity Replicate and Attunity Enterprise Manager to facilitate modern analytics

BURLINGTON, Massachusetts, December 5, 2018 /PRNewswire/ --

Attunity Ltd. (NASDAQ CM: ATTU), a leading provider of data integration and big data management software solutions, announced today that one of its existing customers, a global bank (the "Bank"), has expanded use of its solutions and purchased [Attunity Replicate](#) and [Attunity Enterprise Manager \(AEM\)](#) for over \$2 million. The term agreement will support a broader deployment for the Bank's growing data lake, enabling modern, real-time analytics.

The Bank, which began its modern analytics initiative two years ago, decided to expand it to integrate additional data from a larger variety of systems including Kafka and mainframe. While it had also been using alternative data integration products, the team selected Attunity for the next phase of its strategic data lake initiative because of the solution's ability to automate the integration process and stream data across multiple heterogeneous systems quickly and easily. The Bank has also chosen the Attunity platform for its agentless, low-impact change data capture (CDC) technology. These innovations are expected to accelerate the Bank's analytics initiative.

"We continue to see great momentum and expansion in our business and this additional contract with an existing world-class customer is further evidence of that," stated **Mark Logan, Attunity President**. "Our ability to manage complex data integration with ease to facilitate the most strategic data lake and cloud analytics initiatives is keeping us top of mind with the largest and most sophisticated companies in the world. This is a positive trend in that such enterprises think of Attunity first to solve their toughest data integration challenges."

About Attunity

Attunity is a leading provider of data integration and Big Data management software solutions that enable availability, delivery and management of data across heterogeneous enterprise platforms, organizations and the [cloud](#). Our software solutions include [data replication and distribution](#), [test data management](#), [change data capture \(CDC\)](#), [data connectivity](#), [enterprise file replication \(EFR\)](#), [managed file transfer \(MFT\)](#), [data warehouse automation](#), [data usage analytics](#) and [cloud data delivery](#).

Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to, risks and uncertainties relating to: our history of operating losses and ability to achieve profitability; our reliance on strategic relationships with our distributors, OEM, VAR and "go-to-market" and other business partners, and on our other significant customers; our ability to manage our growth effectively; acquisitions, including costs and difficulties related to integration of acquired businesses and possible impairment charges; our ability to continue to expand our business into the SAP market and the success of our Gold Client offering; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate, Attunity Compose and Attunity Visibility; fluctuations in our quarterly operating results, which may not necessarily be indicative of future periods; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism as well as cyber-attacks; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
