

Attunity Replicate Named a 2019 Trend-setting Product by Database Trends and Applications (DBTA) for Fifth Consecutive Year

December 13, 2018

Winning Solutions for Data Management and Analysis Highlighted in DBTA Magazine's Annual List

BURLINGTON, Massachusetts, December 13, 2018 /PRNewswire/ --

Attunity Ltd. (NASDAQ CM: ATTU), a leading provider of data integration and big data management software solutions, announced today that its flagship data integration solution, [Attunity Replicate](#), has been named a Trend-setting Product in data management and analysis by Database Trends and Applications for the fifth consecutive year. The list, "DBTA Trend-Setting Products for 2019," recognizes products in the marketplace that are both innovative and effective in helping customers address evolving data challenges and opportunities. In all, 100 products are highlighted in the special December edition of *Database Trends and Applications* magazine and on the [DBTA website](#).

Attunity was recognized as a top 100 company this year based on its innovative data integration and automated data pipeline solutions. The company also offers data warehouse automation and data usage analytics solutions, designed to accelerate modern data initiatives and make data available in real-time across enterprise platforms.

"Today, more than ever, businesses rely on IT to deliver a competitive edge," remarked **Thomas Hogan, Group Publisher of *Database Trends and Applications***. "However, it has become very difficult to sift through all the hype and identify products that produce results in the real world. We created this list to do the heavy lifting for data professionals and point out the products that are really transforming enterprise data management and analysis."

"The need for data pipeline automation and modern analytics continues to drive innovation in data management," said **Itamar Ankorian, Chief Marketing Officer at Attunity**. "We are honored to be named again to DBTA's 2019 Trend-setting Products list and look forward to continually empowering customers with our modern data integration platform, delivering real-time data across databases, data lakes, cloud and streaming platforms."

About Database Trends and Applications

Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to, risks and uncertainties relating to: our history of operating losses and ability to achieve profitability; our reliance on strategic relationships with our distributors, OEM, VAR and "go-to-market" and other business partners, and on our other significant customers; our ability to manage our growth effectively; acquisitions, including costs and difficulties related to integration of acquired businesses and possible impairment charges; our ability to continue to expand our business into the SAP market and the success of our Gold Client offering; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate, Attunity Compose and Attunity Visibility; fluctuations in our quarterly operating results, which may not necessarily be indicative of future periods; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism as well as cyber-attacks; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by

law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
