Attunity Replicate Wins Best Data Replication Solution in DBTA Readers' Choice Awards 2017

BURLINGTON, Massachusetts, August 7, 2017 /PRNewswire/ --

[Attunity Ltd.](#) (NASDAQ CM: ATTU), a leading provider of data integration and Big Data management software solutions, announced today that its Attunity Replicate software has been named the Database Trends and Applications (DBTA) Readers' Choice Award winner for Best Data Replication Solution. The DBTA Readers' Choice Awards are selected each year by the readers of Database Trends and Applications magazine and [DBTA.com](#). The full list of winners can be found [here](#).

Attunity Replicate is a universal platform for data replication and ingestion featuring real-time change data capture (CDC) technology. It enables users to make data available in real-time across all major databases, data warehouses, Hadoop, streaming and cloud platforms. Used by hundreds of enterprises worldwide, Attunity Replicate moves data easily, securely and efficiently with an agentless design that allows for minimal operational impact.

"Today, more than ever, businesses are looking for ways to manage and leverage their information resources to create new opportunities and deliver a real competitive advantage," said **Tom Hogan, Group Publisher of Database Trends and Applications magazine**. "There is an expanding array of solutions for storing, protecting, integrating, enhancing, and analyzing data. The DBTA Readers' Choice Awards play a key role in spreading information about products that are providing a unique value to customers. Our congratulations go out to all the winners and finalists."

"We are honored that the readers of DBTA have chosen Attunity Replicate as their #1 data replication solution," said **Itamar Ankorian, Chief Marketing Officer at Attunity**. "The need for universal data availability across hybrid environments and for real-time analytics is growing quickly and we focus on helping our customers alleviate one of the most difficult parts of data management. This recognition reaffirms our customers' loyalty to our solution and our commitment to solving data integration challenges for them. We look forward to continuing to earn more wins in the future and creating more innovative solutions that fulfill customers' data-driven needs."

About Database Trends and Applications

Database Trends and Applications is where the top corporations, government agencies and public institutions go to learn about the leading technologies and strategies for succeeding in our increasingly data-driven world. From live webinars to technical white papers, market research, independent analysis and breaking news stories, DBTA covers all the key issues in data management and analysis today. For more information on Database Trend and Applications, its magazine, email newsletters, Data Summit conference, and web events, please visit us at <http://www.dbta.com>, or on Twitter @dbtrends.

Safe Harbor Statement

This press release contains forward-looking statements, including statements regarding the anticipated features and benefits of Replicate Solutions, within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because

such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to: our reliance on strategic relationships with our distributors, OEM and VAR partners, and on our other significant customers; risks and uncertainties relating to acquisitions, including costs and difficulties related to integration of acquired businesses; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Maestro; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism; and other factors and risks on which Attunity may have little or no control. This list is intended to identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's latest Annual Report on Form 20-F which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
