## **Attunity Reports Second Quarter 2018; 86% License Growth**

---  
*Increases Outlook for Full Year 2018*  
---

**Burlington, MA – July 25, 2018** – Attunity Ltd. (NasdaqCM: ATTU), a leading provider of data integration and Big Data management software solutions, today reported its unaudited financial results for the three-month period ended June 30, 2018.

“We are pleased to report record results for the second quarter of 2018. We continued to accelerate our business, and achieved license revenue growth of 86% year-over-year and total revenue growth of 47% year-over-year for the quarter. The momentum has been building over the past several quarters, driven by the shift in the analytics market to the next level of data lake adoption, the fast growth of the Cloud as an enterprise data platform, and our strong execution. With the combination of our innovative solutions and strategic partnerships with key industry leaders, we are strongly positioned to capitalize on this growing market opportunity,” stated Shimon Alon, Chairman and CEO of Attunity.

“The introduction of our recurring revenue pricing model has quickly resulted in strong customer adoption, with the majority of Replicate direct license deals in the quarter being term-based. We anticipate this trend to continue in the second half of 2018 and beyond. As a result of our strong first half of 2018 and the momentum we see for the full year, we determined to raise our guidance,” concluded Mr. Alon.

### **Recent Operational Highlights**

- Approximately 60% of the number of Replicate direct license deals in the second quarter were term-based, which represents approximately 70% of Replicate direct license revenue
- Closed two large term-based deals, one for a total of \$2.8 million and one for a total of \$2.3 million
- Closed first large GDPR solution sale for a total of \$0.9 million
- Introduced new Gold Client solution to enable GDPR compliance for SAP® environments
- Conducted a strategic customer advisory board with representatives from 20 large companies
- Hired a new EVP of North America Sales Operations, who previously served as a sales executive of Oracle’s data integration business, including GoldenGate

### **Updated Outlook for Full Year 2018**

Equity-based compensation	(6)%	(5)%
Amortization associated with acquisitions	(1)%	(1)%
Non-GAAP Operating Profit Margin (1)	7%	10%

(1) Non-GAAP Operating Profit Margin is calculated by dividing the non-GAAP Operating Profit by the total non-GAAP revenues for the period.

These estimates for 2018 reflect the Company's current and preliminary views, which are subject to change (see below under "Safe Harbor Statement") and are based on various assumptions, including the continued expanded adoption of the Cloud as a leading data platform, the continued adoption of modern analytics and the improved execution capabilities of our expanded sales team.

The Company clarified that it does not expect to provide or update guidance more often than on an annual basis.

\*\* See "Use of Non-GAAP Financial Information" below for more information regarding Attunity's use of Non-GAAP financial measures.

## **(\*) New Revenue Accounting Standard**

Effective January 1, 2018, Attunity adopted the FASB-issued ASU, No. 2014-09, "Revenue from Contracts with Customers (Topic 606)", or ASC 606, a new accounting standard related to revenue recognition. Attunity adopted ASC 606 using the modified retrospective method, which means that the comparative financial information for the three and six month periods ended June 30, 2017 has not been restated in the current financial statements under the new accounting standard. Accordingly, the percentage changes from the 2017 to 2018 periods differ from what they would have been had the same accounting standards been in effect for both periods. In the interest of comparability during the transition year to ASC 606, the company has provided revenue, operating expenses, operating income (loss), financial income, taxes on income, net income (loss) and earnings per share information in accordance with both ASC 606 and revenue recognition rules in effect prior to the adoption of ASC 606 (ASC No. 985-605, or ASC 605). *For further details, see the Impact of the Adoption of ASC 606 table later in this press release and the note thereto.*

## **(\*\*) Use of Non-GAAP Financial Information**

In addition to reporting financial results in accordance with U.S. generally accepted accounting principles, or GAAP, Attunity uses Non-GAAP measures of net income (loss), operating expenses, operating profit (loss), and diluted net income (loss) per share, which are adjusted from results based on GAAP to exclude amortization associated with acquisitions, equity-based compensation expenses, non-cash financial expenses, such as the effect of a revaluation of liabilities presented at fair value, and the effect of changes in deferred taxes related to non-GAAP adjustments. Attunity's management believes the non-GAAP financial information provided in this release is useful to investors' understanding and assessment of Attunity's on-going core operations and prospects for the future. Management uses both GAAP and non-GAAP information in evaluating and operating its business internally and as such has determined that it is important to provide this information to investors. The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP. *For further details, see the Reconciliation of Supplemental Non-GAAP Financial Information table later in this press release.*
